The second public meeting for the Phila2035 West District Plan took place on September 26th at West Philadelphia High School. The meeting attracted over 125 attendees to the school located at 4901 Chestnut Street.

This meeting served a dual purpose. The first was to update the public about the planning process for the West District Plan, specifically providing analysis of the first public meeting results. The second was to obtain community input on district priorities and for the selected Focus Area — Market Street. A Focus Area is an area where multiple layers of public intervention (e.g. zoning changes, land sales or acquisition, infrastructure improvements, business incentives, etc.) can come together to create positive momentum and revitalize specific intersections, corridors, or neighborhoods.

After a presentation about the planning process and first public meeting results, Planning Commission staff facilitated conversations and preference voting exercises at ten different stations. The stations were as follows:

- Vacancy in the West District
- Commercial Corridors and Nodes
- Senior Friendly Neighborhoods
- Prioritizing Safety Improvements
- Biking in the West District
- Public Realm Interventions on Commercial Corridors
- Cobbs Creek Park and Parkway
- Gateway Placemaking
- Prioritizing Market Street Corridor Improvements
- Existing Zoning and Land Use
Prior to the staff presentation and the facilitated group exercises, residents were asked to participate in a “Where Do You Live?” welcoming exercise. The purpose of this exercise was to assess which areas of the West District participants represented, and to gauge how participants arrived to the meeting.

As shown on the map, participants came from all areas of the District. In addition, several participants came from across the City including the West Park, South, University Southwest, and Central Districts.

*Note: Not everyone who attended participated in this exercise.
When asked about vacant land, residents tended to favor community open space and redevelopment in areas of high vacancy, community gardens and infill development in areas of medium vacancy, and infill development and small gardens or public spaces in areas with low vacancy.

### VACANCY IN THE WEST DISTRICT

Many neighborhoods in the West District have varying levels of vacancy. What type of new uses should be considered for vacant lots?

<table>

</tbody>
</table>

Additional Comments:
- Homeownership keep as RSA-5
- Don’t move people from their blocks
- Tiny houses need to be utilized
- No popout box bay windows, respect neighboring character
- Open space and urban gardens on corners
- Yes to infill development on moderately vacant blocks, and we want single housing – 8,9,10 hundred block of Belmont, 68th and Cobbs Creek
- Education benefits of community gardens are good
- We need garden education
- No luxury redevelopment, needs to be affordable
- New buildings should aesthetically relate to adjacent older buildings
- Same height as neighboring homes
Favorite shopping areas of the West District Meeting participants included 56th Street, Baltimore Avenue, Park West Town Center, and 60th Street. Residents would like to see more shopping areas within walking distance of their homes, and better store mix.

COMMERCIAL CORRIDORS AND NODES
The West District has many commercial corridors and nodes including 52nd, 60th and Market Streets, Lancaster Avenue, and Baltimore Avenue. Several of these corridors have seen disinvestment over the last few decades with high vacancy levels and limited shopping options for residents.

Tell us about your current shopping experiences.

When asked what types of improvements would make the neighborhoods more “senior-friendly,” participants had a host of responses. Some of the most voiced opinions included senior-focused activities and pedestrian and transit access.

**SENIOR-FRIENDLY NEIGHBORHOODS**

The West District is home to a growing number of elderly residents, with direct implications for housing, transportation, and the public realm. What are the most important age-friendly features?

<table>
<thead>
<tr>
<th>What amenities make a senior friendly neighborhood?</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cobbs Creek Park</td>

Use a post-it note to tell us what you think!
Planning Commission staff analyzed crash reports at major intersections in the West District, and determined the five most dangerous intersections. Of those intersections, residents felt that 63rd and Market Streets and 52nd and Locust Streets were among their highest priorities for improvement, with additional intersections defined on the below map.

PRIORITIZING SAFETY IMPROVEMENTS

There are several dangerous intersections within the West District. Help show us where people speed, where it is challenging to cross intersections, and where it is hard to bike or walk.

5 High Crash Intersections in the West District

1. 60th Street and Lancaster Avenue - 17%
2. 52nd Street and Locust Street - 31%
3. 61st Street and Vine Street - 10%
4. 62nd Street and Walnut Street - 8%
5. 63rd Street and Market Street - 34%

Are there any other intersections you think need improvements? Show us!

- 58th and Baltimore — high traffic (1)
- 46th and Lancaster — no lights, low economic activity
- Sidewalks @ 55th and Larchwood in bad condition
- 52nd and Locust — too much police activity, high speeds
- 52nd and Lancaster Ave
- 57th and Spruce
- 51st and Baltimore — 5 point intersection
- Two crashes @ 46th and Lancaster in the last month
- Prioritize locations near schools and corner stores
- 62nd Street and Walnut — 2015 car crash with loss of life
Bicycling in the West District is generally not a high priority for residents; however, this could be due to a lack of amenities and safety. Planning Commission staff tried to understand the viewpoints of residents with the following questions. Many respondents referred to a need for safer roads and better lighting.

**BIKING IN THE WEST DISTRICT**

**DO YOU BIKE?**

- **YES!**
  - Work: 3%
  - Leisure: 12%
  - Shopping: 0%
  - All three: 15%

- **NO, BUT I WOULD LIKE TO BIKE**
  - More bike share stations: 5%
  - Safer roads: 17%
  - More bike lanes: 8%
  - More trails: 8%
  - More education: 8%
  - More bike racks: 0%
  - Night lighting: 14%

- **BIKING IS NOT FOR ME**
  - Place dot... 11%

**REASONS FOR BIKING?**

- Work: 3%
- Leisure: 12%
- Shopping: 0%
- All three: 15%

**WHAT WOULD GET YOU TO START BIKING?**

- More bike share stations: 5%
- Safer roads: 17%
- More bike lanes: 8%
- More trails: 8%
- More education: 8%
- More bike racks: 0%
- Night lighting: 14%

**BIKING IS THE WEST DISTRICT COULD BE IMPROVED BY**...

- Bike lanes in strategic areas to make all transportation more efficient
- Night time biking can be risky
- Protected bike lanes are unsafe for curbside car pickup/dropoff
- Who screwed up the traffic lane in U City? Put it back! Additional 15 minute commute!
- Bike lanes should not take away travel lanes
- Need more Indego Stations further west
- Too few places to lock bikes
- Cycling is a nuisance
- It’s better for motorists that cyclists have separate lanes
- Protected and maintained bike lanes
- New Chestnut Street bike lane is dreamy
- Bike racks @ 52nd and Baltimore and Clark Park
- More buffered bike lanes
- Bike lane on Walnut needs buffer/enforcement on stopped cars in bike lane
- Parking protected lanes
- No more bike lanes – makes streets smaller, Chestnut Street is a problem
- Share the road, bike education, bikes held to same standards as cars
- Have rules for bikers to follow and create a way to enforce; bikers do not pay car insurance or registration
- Bikers need to observe all traffic signals and laws
- Biking in West District could be improved by more bike lanes that do not intersect with trolleys; also, bikes are moving vehicles and bicyclists need to follow the rules of the road
- The new biking lanes are fantastic; hopefully it will extend to Cobbs Creek Parkway
- Bike Share station needed at 63rd and Market, Cobbs Creek Parkway
When asked which public interventions could improve commercial corridors, residents noted a need for transit shelters, greening and street trees, streetscape furniture, and vending opportunities among their top priorities.

**PUBLIC REALM INTERVENTIONS ON COMMERCIAL CORRIDORS**

Commercial corridors can be strengthened by improving the public realm. Public realm enhancement can include vegetation, street lighting, sidewalk paving treatments, safety improvements, or streetscape furniture.

<table>
<thead>
<tr>
<th>Potential Corridor Locations</th>
<th>Greening + Street Trees</th>
<th>Curb Extensions (bump-outs)</th>

Cobbs Creek Park is a major asset for the West District; however, it could benefit from improvements in access and amenities. West Philadelphia residents prioritized intersections for safe crossings and their favorite amenities.

**COBBS CREEK PARK AND PARKWAY**

Help us make Cobbs Creek Park safer and more usable. Where is it tough to access the park? Is speeding an issue? Should there be more crosswalks? Better lighting? Tell us where!

Place **ONE** dot on the intersection you think most needs safety improvements.

Place **TWO** dots on the open space features you would like to see more of in Cobbs Creek Park.

**Public Art / Passive Open Spaces**

- Lighting on the parkway and trails (8)
- Clean the creek and keep cleaning it (2)
- Water fountains in the park (2)
- Rules not enforced
- Build out/update playground
- Cleaner spots on the north side of Cobbs Creek, friendly, welcoming sites; benches
- Fitness stops, adult jungle gyms
- Bike lane ends at city limits
- Tractor trailers on Cobbs Creek Parkway need to be removed

**Habitat and Pollinator Gardens**

- 15%

**Rain Gardens / Stormwater Control**

You tell us!
West District meeting participants also commented on zoning and land use, what works and what does not work in their neighborhoods.

**Existing Zoning:**

Keep corner retail in neighborhoods
56th Street through 60th Street is single family residences
Double check use on Chestnut and Larchwood Streets
5000 block of Cedar – keep single-family dwellings, parking and families
Flag lot @51st and Spruce – RSA-5

**Existing Land Use:**

Regular folks need to be included in decision making; advisory councils; zoning, etc
Improvements to community centers; institutions are needed
Preservation of property taxes for homeowners is important
Fair cost of living for existing residents
Belmont – needs more amenities to draw and keep new buyers
The West Market Street Corridor was chosen as a focus area for its unique access to the Market Street EL, and for the range of improvements that could help this corridor benefit the district. Residents were asked which types of improvements were needed at which locations along the corridor, and chose from a range of development, open space and plazas, gateways and public art, greening, safety improvements, and streetscape furniture.

**PRIORITIZING MARKET STREET CORRIDOR IMPROVEMENTS**

The Market Street corridor has a wide range of intervention opportunities that will improve the economic vibrancy of the district, while making the Market Street streetscape more engaging, beautiful, and safe for all users. But with limited resources, we have to prioritize specific interventions and specific locations for improvements.

Help us decide where and what should be improved along the Market Street corridor!

**MARKET STREET TOOL BOX**

- **DEVELOPMENT**: Commercial and residential development. Focus development around MFL stations.
- **GREENING**: Street trees, planters, green stormwater infrastructure, vertical green column walls.
- **SAFETY IMPROVEMENTS**: Improvements to traffic patterns, sightlines, intersection and crossing designs, speeding.
- **STREETScape FURNITure**: Pedestrian amenities including seating, lighting, trashcans, bicycle racks, and programming.
- **OPEN SPACE AND PLAZAS**: Strategically located plazas or open space enhancements along corridor.
- **GATEWAYS AND PUBLIC ART**: Decorative lighting, murals, sculpture, sound or wind opportunities.

Are there any other IMPROVEMENTS we should consider? Let us know!

See next page for meeting results
PRIORITIZING MARKET STREET CORRIDOR IMPROVEMENTS

The Market Street corridor has a wide range of intervention opportunities that will improve the economic vibrancy of the district, while making the Market Street streetscape more engaging, beautiful, and safe for all users. But with limited resources, we have to prioritize specific interventions and specific locations for improvements.

Help us decide where and what should be improved along the Market Street corridor!

PLACE ONE of each of the dots on the map within the Focus Area Boundary.

Prioritize where you would like to see each intervention located.

DEVELOPMENT
Commercial and residential development. Focus development around MFL stations.

GREENING
Street trees, planters, green stormwater infrastructure, vertical green column walls

SAFETY IMPROVEMENTS
Improvements to traffic patterns, sightlines, intersection and crossing designs, speeding

GATEWAYS AND PUBLIC ART
Decorative lighting, murals, sculpture, sound or wind opportunities

STREETSCAPE FURNITURE
Pedestrian amenities including seating, lighting, trashcans, bicycle racks, and programming

OPEN SPACE AND PLAZAS
Strategically located plazas or open space enhancements along corridor

Are there any other IMPROVEMENTS we should consider?

Let us know!
General Comments:
52nd Street Corridor designation should go south to Baltimore
Focus on helping 52nd Street properties become multi-unit residential- Business owners don’t live upstairs anymore
Clean up north Cobbs Creek Park
More lighting along 63rd needed, especially Market Street and Cobbs Creek Parkway
Improvement for student activities and more assistance with school programs needed
Extend Chestnut Street Bike Lane to 63rd Street
Work with School District to develop magnet schools and special programs to improve neighborhood students and prospects for future home buyers
More green area at 64th and Callowhill Streets
West Philly parks need clean and new water fountains
Leave 100 N. 55th Street residential – no more students
See implementation of: zero net energy, solar, green living, sustainability
North 52nd Street – need improvement from Girard Ave. and up
Improve West Mill Creek
For youth: safer basketball courts needed
History and culture are important
Deter developers from continuous multi-family apartments
No gentrification – keep taxes the same

Other Ideas:
Encourage and assist more small businesses to enter the area to create long-term local jobs
Access to education for entry level skilled labor is needed
Look in the taxes for the senior @65 year until death if they stay in their homes
Address educational desert in West Philadelphia – help School District create better schools
Work counseling and emotional counseling needed

The final set of boards at the public meeting were general comment boards to allow residents to voice their opinions on any other issue that was not addressed by our voting boards. Please check phila2035.org for more news, and an announcement about our third public meeting!
